university advancement is expected. Participation in support of most student-focused events (matriculation, commencement, college orientations, open houses, program specific graduations, and admission events). Mentor and coach junior leadership, encourage scholarship and research opportunities, collaborate with other college deans to increase multidisciplinary opportunities for faculty and students. Advocate for resources to support the mission of the college. Serve on community boards and attend community-focused events to learn more about local and regional needs and to increase the visibility and profile of the university. In collaboration with Associate Dean and Program Chairs, complete faculty and staff evaluations, tenure and promotion decisions, compile metrics for student enrollments, solve student concerns/grade appeals and participate in student recruitment efforts.

Associate Dean of Nursing (6/1/14-7/1/18)
