

Vision:

To be a local, regional, national and international leader for excellence and innovation in entry-level doctoral occupational therapy education, practice and scholarship.

It is our Mission to prepare our graduates as transformative, culturally competent, life-long learners demonstrating excellence in leadership, ethics, practice and scholarship to promote full participation in meaningful occupations, health and wellness for individuals, groups and populations.

1. Deliver high-quality education to prepare diverse students for current and emerging areas of practice.

2. Increase scholarship and secure extramural and intramural funding.

3. Strategically align faculty and student service activities with Department, School, and University goals.

4. Support faculty with educational, training, continued competence and mentoring opportunities.

5. Increase the impact and reach of the Department of Occupational Therapy both nationally and internationally.
